

4/19/2022

Good evening, as most of you know I work for the US Postal Service. On March 8th I was interviewed for a Manager of Post Office Operations position along with other potential candidates. On March 9th I was selected and given the opportunity to work in Portland, ME while I determine (and they determine) if the position was a good fit for myself and my family. I have been working in the Portland, ME area for the last 5 weeks. I brought this information to my fellow board members and that when I determine if I am accepting the position, I would make an announcement.

That evening is tonight...I am announcing that effective 5/9/22, I will be resigning from the Town of Carroll select board. On that date my family and I will officially no longer be considered town residents.

It has been an honor serving the Town and I want you to know, my efforts have always been made in the best interest for the residents of Carroll.

I hope the thought of pushing for what we CAN do rather than what we CAN'T do continues to move the town forward. I am hopeful that always questioning the old adage "that's the way we've always done it" opens people's minds to what is possible by listening to each other and supporting those elected, to be a successful community.

I would like to thank the residents for electing me twice to represent the town's interest. I am appreciative of all those that continue to work towards the SAU 36 issue, we have taken it farther than any of the previous attempts. I want to thank Dave Scalley and Ken Mills for showing me that with productive open dialogue and mutual respect a Select board can work through any obstacle. These two are classy examples of what I would want to be as a select board member and they each have made me a better board member. I want to thank the town employees for what they do each and every day and wish them continued success working for the residents of Carroll. By far- I would most like to thank my wife and children for all their support in this endeavor and the countless hours they have sacrificed for my belief that I can help make a difference in this small town north of the notches.

Thank you and please remember ...rumors and conspiracy theories have no place in a community that truly wants to be a community.

Thanks,  
Rob
